House Cleaning Time Quick Reference

A simple Denver planning guide based on Roochii Cleaning's current two-cleaner estimates.

STANDARD CLEANING	DEEP CLEANING	MOVE-OUT CLEANING
1.6 - 3.3 hrs	**2 - 4 hrs**	**2.5 - 5 hrs**
Typical planning range for homes around 1,000 - 4,000 sq. ft.	More detailed work usually requires additional time.	Broader scope generally takes the longest.

Cleaning Time by Home Size

Home size	Standard	Deep	Move-out
1,000 sq. ft.	1.6 - 2 hrs	About 2 hrs	2.5 - 3 hrs
2,000 sq. ft.	2 - 2.5 hrs	2.5 - 3.5 hrs	4 - 4.5 hrs
3,000 sq. ft.	2.7 - 3 hrs	3.5 - 4 hrs	4.5 - 5 hrs
4,000 sq. ft.	3 - 3.3 hrs	About 4 hrs	About 5 hrs

How to read these numbers: These are appointment-time planning ranges for a **two-cleaner team**, not guaranteed durations. Two cleaners working for two hours provide about four labor-hours of work.

For homes larger than 4,000 sq. ft., Roochii's current planning guide can extend to about 4 hours for standard cleaning, 5 hours for deep cleaning, and 6 hours for move-out cleaning.

Service Types at a Glance

Standard	Routine residential maintenance and the shortest typical planning range.
Deep	More detailed cleaning for homes that need extra attention.
Move-out	Broader cleaning scope for a property being prepared for handoff.

What Can Change the Cleaning Time?

Square footage is useful, but the actual workload determines how long the appointment may take.

Bathrooms & fixtures

More toilets, sinks, showers, tubs, vanities, mirrors, and hardware mean more hands-on cleaning.

Current condition

Routine soil and heavier buildup can require very different amounts of work.

Clutter & belongings

Books, decor, toys, and collectibles can make surfaces harder to access.

Surface materials

Hardwood, natural stone, and other sensitive surfaces may require more controlled cleaning.

Add-on services

Windows, oven cleaning, and refrigerator cleaning add work beyond the base service.

Special requests

Priority areas, access instructions, and specific requests can change how the appointment is planned.

Before the Cleaners Arrive: Quick Reference

Clear priority surfaces	Move unnecessary personal items from counters, tables, shelves, and other areas you want cleaned.
Share priority areas early	Mention the rooms or areas you want the team to focus on before the appointment.
Provide access and parking details	Codes, entry instructions, and parking information can help prevent avoidable delays.
Request add-ons in advance	Windows, oven cleaning, refrigerator cleaning, and other extras should be included in the requested scope.

Remember: This guide is a quick planning reference, not a fixed quote or guaranteed appointment length. Roochii estimates the actual workload using home size, bathrooms, condition, requested service, and other relevant details.

Reference guide based on Roochii Cleaning's current Denver planning estimates. Actual cleaning time may vary by home and requested scope.
